ABOUT US

Andalusian olive oil, delivered worldwide

Zaitun del Sur is the extra virgin olive oil export brand of Symbess Grupo Empresarial, a Spanish business group based in Seville. We select premium oils from certified mills and cooperatives across Andalusia, the world's leading olive oil region, and supply them to importers, packers, distributors and foodservice buyers abroad.

We work in the format that suits your business: **bulk oil** in IBC or flexitank for bottling at destination, **private label** under your own brand, or our **Zaitun del Sur** premium bottled range.

Our team has a background in international container shipping. We handle quotation, samples, quality control, export documentation and freight, so you deal with one partner from the mill to your port.

ORIGIN & QUALITY

Andalusia: where great oil begins

Andalusia produces close to half of the world's olive oil. Its climate, hills and generations of know-how give oils of depth, freshness and character, and Spain applies some of the strictest quality controls in the sector.

Our main variety is **Picual**: fruity, with green notes and a pleasant bitterness and pungency. It is naturally rich in polyphenols and very stable, so it keeps its quality during long sea voyages. Other varieties and blends are available on request.

The harvest starts in mid-November. Early-harvest oils, the freshest and most aromatic of the season, can be reserved in advance. Each lot is analysed before shipment and can be traced back to the mill that produced it.

Certifications available from our partner mills
